# Summary

The following contains information on both business owners, building owners and leasing/sales information. The area this covers is: 1st Avenue NW, 1st Street NE, 2nd Avenue NW, 2nd Street NE, 2nd Street NW, 3rd Street NE, 3rd Street NW, 4th Street NW, 5th Street NW, Central Avenue, Heritage Place, and 7th Street NW. The project began on November 30, 2009 and finished January 28, 2010.

# Goals Completed

- Week 1: Went through databases provided by the city and chamber to match up existing information.
- Week 2: Continued work on databases. Formatted inserts for informational packet and stuffed 300 envelopes with informational packet.
- Week 3: Began canvassing downtown area (on foot) looking for available space.
- Week 4, 5, & 6: Canvassing downtown, updating database, handing out informational packets, and contacting leasing agents
- Week 7 & 8: Combined information into Word document from Excel for ease of reading. Completed final report.

# Scope of Work

After combining information provided by the City and the Chamber of Commerce, I spent time going through block by block to drop off information and make contact with business owners. Most business were receptive to receiving information, but either did not want to give out much information or they did not have the information that I was looking for. When making contact with building owners it was more productive to get in touch with leasing agents. Most information that was returned included information already provided on the Rice County website.

# Challenges

- Not all buildings are clearly marked with numbers
- Making contact with some building and business owners
- Not all were receptive

# Data Bases

Information was combined into an Excel base using the information provided and merged into a word document. You will see that available space is highlighted. Some building owners did not return my calls. I made efforts to collect as much information as possible.

# Moving Forward

Information from either Excel or Word is formatted to be manipulated for either website use or mailing use. As this information of space available will be constantly changing and will have to be updated periodically. All files will also be attached in an e-mail for further use.
